

Manufacturing

Manufacturing

There's a strong manufacturing and supply chain base built in Regina. This city is a diversified community that supports each other and challenges each other. Manufacturing is the engine that powers our agricultural, mining, and energy sectors.

Regina is home to innovation with a history of firsts.

The local manufacturing community includes:

- Grain handling, storage and transportation
- Mining and industrial equipment
- Equipment for livestock and forage
- Technologies to clean up soil, air and groundwater contaminations
- Steel tank products and pressure vessels
- Machinery, transportation and industrial equipment
- Transformers
- Exploration, production, and remediation products for the oil industry
- Contract manufacturing services for telecommunications & military industries
- Food and beverage manufacturing/processing
- Furniture, cabinets, millwork, and flooring

Quick Facts

6,978	employees
201	employers
17	manufacturing industries
\$3.7	billion in sales
\$970	million in GDP
6.5%	GDP

"We wouldn't be here if we didn't have one of the most innovative and innovation-hungry customer bases in the world. There's a reason why all of the seeding manufacturers that will lead the world in small seeds, small grains, broad acre seeding are from Saskatchewan. It's not just because we have good ideas, it's because our customers are pushing us to be better and more innovative every day."
