

Metal Fabrication

Metal Fabrication

This city knows how to get things done. The right infrastructure, the right return and the right people. The fabricated metal supply chain has a proven ability to export products abroad. We have the largest steel producer in Western Canada and the largest producer of large-diameter pipe in North America. This supply chain empowers the GRA economy, from the street sweeper to the underground rock bolter, metal fabrication enables growth.

Regina's metal fabrication expertise includes:

- Machine shops
- Fabricated metal product manufacturing
- Equipment and machinery manufacturing
- Metal service centres
- Coating, engraving, cold and heat treating allied activities
- Paint and coating manufacturing
- Professional, scientific and technical services
- Wholesale trade
- Forging and stamping
- Recyclable metal merchant wholesalers
- Industrial machinery wholesalers

Quick Facts

\$154 million in GDP

“One of the big things companies talk about is the First Nations participation in the economy. The private sector has been very open in leveraging the competitive advantages that we bring, and that's access to labour service. That's a direct access to First Nations talent—multiple skill sets in multiple industries.”

Thomas Benjoe
